Postgres

## Projects

**sMARTA-** is a public transit app that provides the user with the time it takes to get to their desired destination via train, when the next train will arrive, and if it's feasible for them to get to their destination on time. It also lets the user know if they can get on the first available train, as well as the crime rate and details for the desired destination. **Tools Used: HTML, CSS, JavaScript**

**Space App-** is a web app that allows you to see upcoming space events in your area. It gives you the ability to add friends and save your favorite space bodies. **Tools Used: HTML, CSS, JavaScript, NodeJS, Express, SQL**

## Experience

### Weatherspoon & Williams Atlanta, GA

#### Southeast Business Development Manager May 2017 – December 2019

- ❖ Work with business development team and existing partner to initiate and develop new business through GA DOT, and private contracts. This resulted in multi-million-dollar construction project opportunities.
- ❖ Developed and implemented business plan and marketing strategy to penetrate steel market.

### Jabo Industries, LLC Atlanta, GA

#### Lead Project Coordinator/Level I Project Manager May 2016 – December 2019

- ❖ Develop field service project templates used for proposals and plans by the engineering team; Outline project schedules/responsibilities and create WBS by working closely with the project development team.
- ❖ During project kickoffs, responsible for mapping out the designated personnel for various stages of the project; Support engineering/design execution, planning, and interface with the client to ensure milestones/activities are completed on schedule and within budget.
- ❖ Coordinate communication with all areas of the projects that impacts the scope, budget, risk and resources of the work effort being managed; Monitor project progress and provide status reports to leadership.
- ❖ Coordinate with client project managers and discipline engineers to ensure consistency in project execution; Review bid submittals with leadership obtained from subcontractors and help prepare bids.
- ❖ Assist Finance Manager with budgets and billing; recently appointed member of task team to develop company-wide process improvement
